RE: R 511993 Business Opportunity Rule

Dear Sirs:

I am concerned about the proposed Business Opportunity Rule R511993. This measure would prevent me from continuing as a Distributor with XanGo or change my small business as it presently set up. More than likely it will ruin my business.

I do not like or think it is necessary to have a 7 day waiting period. XanGo has a money back guarantee. This waiting period will give everyone the idea that there's something wrong with me or my company. My customers are anxious to try the product and not have to wait at all. You don't have to wait when you want to buy products at Costco or Sears. You should be free to purchase something you want right away.

Also the proposed rule that requires the disclosure of a minimum of 10 prior purchasers nearest to the prospective purchaser is ridiculous. Who wants others to know their personal business & information? That information is not needed in any other kind of purchase nor is it needed in MLM. A money back guarantee takes care of this.

This ruling would not stop crook or scammers. They violate the current laws and this one would be no different. It will just hurt me and other hard working distributors. Please do not pass this type ruling.

Sincerely,

[REDACTED]

Sharon Linneer
